As an analytical thinker and a critical and creative problem solver, I am able to call on more than 15 years of engineering and product development experience to solve complex software development questions.

In addition to being experienced in Wordpress development, I also develop object oriented web applications in Python and PHP

I am seeking opportunities that will allow me to contribute my skills to the development of elegant software products as well as allowing my continued growth as a software developer.

Technical Skills:

Python	Django	Wordpress	PHP
HTML/CSS	Java	Github	RESTful APIs
Bootstrap	MySQL	PostgreSQL	Heroku

Object Oriented Programming
Functional Programming

Photoshop	Illustrator	InDesign	Acrobat
Solidworks	Rhino3D	AutoCAD	Google Sketchup

Education

Python & Django Curriculum	B.S Industrial Design
The Iron Yard	Virginia Tech
May – August 2016	May 2000, Cum Laude
