BILL GARDNER
WEB APPLICATIONS DEVELOPER

As an analytical thinker and a critical and creative problem solver, I am able to call on more than 15 years of engineering and product development experience to solve complex software development questions. In addition to being experienced in Wordpress development, I also develop object oriented web applications in Python and PHP. I am seeking opportunities that will allow me to contribute my skills to the development of elegant software products as well as allowing my continued growth as a software developer.
